PRODUCT BROCHURE 2012

ABOUT US

Candle Shack is a family run business, established by me (Cheryl MacLean) and my friend Natasha Skelton. As mothers of young children and lovers of scented candles, we were keen to find a natural, cleaner burning alternative to paraffin-wax candles. Having searched high and low, we were unable to find natural scented candles, that combined excellent design and scent-throw without costing the Earth.

All of our products are hand-made in the United Kingdom using the finest ingredients. We are committed to creating a range of high quality soy wax candles to suit all tastes. Our eco-friendly soy wax products are now providing our rapidly growing customer base with a natural, pure alternative to paraffin.

We have spent some time pondering our long term goals - which are underpinned by our Vision and Values:

VISION

Our Vision underpins everything we aim to achieve here at Candle Shack:

"Candle Shack will be the premier manufacturer of quality natural scented candles in the UK, combining: excellence in design, superior fragrance, and uncompromising quality".

Our strategy is simple. We will combine distinctive design, wonderful fragrances and uncompromising quality in a way – and at a price – that our competitors cannot match. Candle Shack will be the scented candle of choice for the discerning UK customer. This will be achieved by working closely with our partners, to build a trusted brand, whilst staying true to our core values.

VALUES

Our values define us. They provide a clear bearing for us to follow. Our values are:

Hurt Nobody. Our intrinsic family values lead us to value fair and equal relationships. We will always enter relationships based on mutual trust and respect. We believe this is a solid foundation for growth. Our products will respect the world around us.

Stand Out. Candle Shack was founded with innovation at its heart. We seek to promote a creative culture in our daily business and in all that we do. Our products will stand out from those of our competitors in design, fragrance and quality!

Enjoy Life. We believe everyone has the right to be happy. Our unique fragrances will offer an escape from the stresses of the world. We will bring a touch of luxury to peoples' homes.

Be The Best. We will always listen and learn. In partnership with our customers and suppliers we will seek to develop a spirit of learning. We will never compromise on the quality of our products.

I hope you love our products...

Cheryl

Environmental

Many people are searching for green products to replace more traditional ones that are unfriendly towards the environment. By using soy wax candles you are choosing to support the environment. Feel great while still enjoying the ambiance you are accustomed to.
